PROFESSIONAL EXPERIENCE

FULL-STACK DEVELOPER

STRATEG - REMOTE   2019/09 - present

Creating web application for various clients, using technologies like php, react, docker

WRITER

WRITEJAVASCRIPT.COM   2019/03 - present

Write content about front-end and back-end development with a focus on JavaScript.

FRONT-END DEVELOPER

DIAKRIT - THAILAND BANGKOK & REMOTE   2017/02 - 2019/06

Front-end lead developer for photoshop extensions (web applications inside photoshop), the first version was built with Javascript/jquery, CSS, handlebars, Node.js and API written in PHP.

Second version front-end was rebuilt using Vue.js, Vuex, Vuetify, and Node.js.

Besides doing frontend development I also did more backend related work. Developing API with PHP MySQL, fixing bugs in our main system.

Created a deploy system in Node.js.

FRONT-END CONSULTANT

FLUENT THAILAND BANGKOK   2019/02 - 2019/05

Front-end consultant for a software development company. One of the biggest projects was a single page application to control the efficiency of air conditions.

Technologies used Vue.js, Vuex, Sass, Bootstrap-vue

VUE CONSULTANT

10XRECRUIT REMOTE   2018/10 - 2019/01

Collaborate with back-end developer and designer to build a SPA dashboard. Some of the technologies used Vue.js, Sass, GraphQL, Apollo
